1 Purpose and scope

In this policy we describe what we offer to our employees. It provides information on our health and insurance benefits, and on benefits such as work from home options and company-issued equipment. Employees are often not aware of the full extent of the benefits available to them, so this document brings them together. It forms part of the Employee Handbook (NS-HR-POL-005, section 6).

Benefit	Who is eligible	Where to apply
Occupational health care, flu vaccination, eye examination for screen work	All employees	Dr. Sabine Lang, HQ on Tuesdays
Gym subsidy, EUR 25 per month	All employees after probation	Personio
Company pension scheme	All employees after probation	Jordan Ellis
Job ticket subsidy and bike leasing	All employees after probation	Jordan Ellis
Hybrid work (2 remote days per week)	Roles that do not require presence on site	Line manager
Company vehicle	Roles with a business need, mainly Garching and field service	Facilities (Markus Vogel)
Parking space	Employees at Munich HQ and Garching, by priority	Facilities (Markus Vogel)
Laptop and other equipment	All employees, depending on role	Helpdesk, ServiceNow

2 Employee health

2.1 Our approach

Employee health is important to us. We do not discriminate against people with disabilities or health conditions, and we want to do everything possible to help employees stay healthy. Our non-smoking and substance policies (NS-HR-POL-004) protect your health at work, and our offers below support you in staying well.

Offer	Details	Contact
Company physician (Betriebsärztin)	Dr. Sabine Lang is on site at HQ on Tuesdays; confidential consultations, occupational health examinations, advice	Ext. 2450
Flu vaccination	Free of charge every autumn at HQ and Berlin	Dr. Sabine Lang
Eye examination for screen work	Offered to employees who work at a screen; screen glasses are provided where medically needed	Dr. Sabine Lang
Ergonomic workplace check	On request for office and home office workplaces	Carlos Mendes, ext. 2400
Employee Assistance Programme (EAP)	Free and confidential counselling for you and your family	Mariam Haddad, ext. 2010
Gym subsidy	EUR 25 per month towards a gym membership, paid with the salary on proof of membership	Personio
Healthy workplace	Fresh fruit and mineral water at HQ and Berlin; health days twice a year	Facilities

2.2 Workplace conditions

We create a workplace with good lighting, a comfortable room climate and low noise, in line with the Workplace Ordinance (ArbStättV). Report any problem with your workplace to Facilities or to the Safety Officer. Occupational safety is described in NS-EHS-PRC-001 and in NS-HR-POL-004.

3 Insurance, pension and mobility benefits

3.1 Health insurance

You are a member of a statutory health insurance fund (Krankenkasse) of your choice, and we pay the employer's share of the contributions. We register you with the fund when you join. For employees who are not subject to compulsory insurance, we pay the legal employer contribution to private health insurance. For more information on your insurance, contact HR.

When you leave the company, your insurance does not simply end: you can continue your membership as a voluntary member or through family insurance. Your health insurance fund explains the options, and HR provides the employment documents you need.

3.2 Company pension scheme

After probation, you receive an employer-funded contribution of EUR 60 per month to our company pension scheme (betriebliche Altersversorgung). You can add your own contribution through salary conversion (Entgeltumwandlung), and we add the statutory employer subsidy of 15 percent of the converted amount. HR (Jordan Ellis) explains the options and the application.

3.3 Mobility benefits

After probation, we pay a subsidy of EUR 25 per month towards your public transport ticket (Deutschlandticket), paid with the salary on proof of the ticket. You can also lease a bicycle through salary conversion; contact HR for the conditions. Bicycle stands and showers are available at Munich HQ and in the Berlin office.

4 Accidents at work

We strive to keep our workplace safe, but accidents may happen. Accidents at work, on the direct route to and from work, and work-related diseases are insured by the statutory accident insurance (Berufsgenossenschaft). The insurance pays for medical treatment, rehabilitation and, where applicable, wage replacement and pensions. This also covers work-related activities in your home office. If you are unsure whether an event is covered, ask HR.

Step	What to do	Who
1	Get first aid or medical help; call 112 in an emergency	You, first aider
2	See a doctor approved by the accident insurance (Durchgangsarzt, D-Arzt) and say that the accident happened at work	You
3	Inform your line manager and Carlos Mendes (ext. 2400) on the same day	You
4	Complete the internal accident report in Confluence	Line manager
5	Submit the accident report (Unfallanzeige) to the Berufsgenossenschaft where required	HR, Safety Officer

We will help you with every step. Near misses and hazards are reported in the same way. See also NS-EHS-PRC-001.

5 Work from home and remote working

5.1 Hybrid work

If your job does not require you to be present at our premises, you can work from home on up to 2 days per week. Your team agrees on the on-site days so that collaboration stays easy. If you need more remote days per week, or want to work permanently remotely, you need the written approval of your line manager and HR.

5.2 Requests and rules

Topic	Rule
Regular remote days	Set as a recurring day in Personio and agreed with your team
Occasional change	Inform your line manager in Personio at least 1 working day in advance
Emergencies	You may work from home without prior approval; call or message your line manager as soon as possible
Temporary full remote work	Up to 2 consecutive weeks per year for office-based employees, for example for new parents or short-term disability; request in Personio at least 1 week in advance
Work from abroad	Needs prior approval from HR and the CISO (tax, social security, data protection); maximum 20 working days per calendar year
Permanent remote work	Written approval by line manager and HR; the same security, confidentiality and equal opportunity rules apply as for office-based colleagues

When you work from home, please use a fast and secure internet connection and a place without noise or distractions. Always use the company VPN, keep company data off private devices, and make sure that nobody else can see your screen or hear your calls (NS-IT-POL-001). Check in with your team frequently.

5.3 Severe weather

If severe weather such as snow or ice affects the commute, check your email and the intranet to see whether the office is officially closed. By law, the risk of getting to work lies with the employee. In practice, we do not expect you to put your safety at risk. Work remotely if your role allows it, or agree with your line manager how to make up the time (flexitime or vacation). If there is an official travel warning, no disciplinary measures follow.

6 Employee expenses

We pay some expenses directly on your behalf, such as hotel rooms for business travel. For expenses that you pay yourself, please keep track of them and claim them. We reimburse expenses that are related to:

Category	What is covered
Business travel	Rail (2nd class), flights (economy), taxis where justified, accommodation, meal allowances at the statutory rates (EUR 14 for absences of more than 8 hours, EUR 28 for a full day), and EUR 0.30 per km for business trips with a private car
Relocation	Only for approved relocations at the company's request, as agreed in writing in advance
Education and training	Approved courses and certifications from your learning budget (NS-HR-POL-005, section 5.3)
Outings with business partners or colleagues	Only with prior approval by your line manager

Not all travel expenses are reimbursable. For example, we pay for your transportation to an airport for a business trip, but not to a museum for a private visit. Before a business trip, ask your line manager or HR if you are unsure which expenses are reimbursable.

6.1 Claims and approval

Keep receipts for all reimbursable expenses. Submit your claim with the receipts in Personio within 30 days of the date of the expense. If your claim is approved, the amount is paid by bank transfer with the salary of the month, if it was approved by the 15th of the month, and otherwise with the following month.

Amount per claim	Approval required
Up to EUR 500	Standard processing by Finance
Above EUR 500	Line manager
Above EUR 5,000	Director (department head)

7 Company vehicles

7.1 Eligibility

You may drive a company vehicle if you need it as an indispensable part of your job, for example in the Garching depot and for field service, or if it is part of your job benefits. Either way, the vehicle belongs to Norvane Systems. You need a valid driving licence for the vehicle class (Klasse B or higher), which Facilities checks twice a year. Company vehicles are used for business purposes only unless a written agreement says otherwise. Private use is a taxable benefit (geldwerter Vorteil) and is handled through payroll.

We pay fuel or charging, tolls and parking for business trips. Traffic fines and parking tickets are the responsibility of the driver. We ensure that our vehicles are safe, in good condition and fully insured (comprehensive cover).

7.2 Your responsibilities

Drive safely and sober and respect traffic laws and other road users. Check your vehicle regularly, including tyre pressure and fluid levels. Facilities arranges winter tyres by 15.10. each year. We expect you to avoid:

- Smoking in a company vehicle.
- Leasing, selling or lending a company vehicle.
- Using a company vehicle for driving lessons.
- Leaving a company vehicle unlocked, unattended with open doors or parked in unsafe areas.
- Allowing unauthorised people to drive a company vehicle, except in an emergency.

7.3 Accidents

If you are involved in an accident with a company vehicle, ensure safety and call 112 where needed, and call the police in case of injuries or significant damage. Contact Facilities (Markus Vogel, ext. 6100) at once so that we can notify our insurer. Do not accept responsibility or promise any payment to another person without authorisation. Complete the accident report in Confluence on the same day.

Please follow this policy to avoid disciplinary measures. For minor breaches, such as allowing an unauthorised person to drive, we issue a warning or withdraw the vehicle. For serious breaches, such as causing an accident while intoxicated, we may terminate the employment (see NS-HR-POL-006). You are liable for damage only if it was caused intentionally or through gross negligence.

8 Parking

Parking spaces are limited. Facilities assigns spaces in this order of priority: employees with disabilities or mobility needs, employees on shift work or late hours without suitable public transport, and car-pools. Company vehicles have their own marked bays. Remaining spaces are given by date of request on a waiting list. Interns and apprentices can also apply. Please send your request to Facilities (Markus Vogel).

Site	Parking	Notes
Munich HQ	Underground car park, about 90 spaces	Assigned by Facilities; spaces cannot be passed on
Berlin office	No employee parking	Bicycle stands and showers; good public transport connection
Garching depot	Parking area P2 outdoors, about 60 spaces	P2 is also the assembly point; keep access routes free
Frankfurt data center	Parking at the colocation facility, arranged with the operator	Facilities issues the access permit

We expect you to keep the parking areas clean and to use only your assigned space. Please behave responsibly to avoid damage or injury. Except where the law requires otherwise, we are not liable for theft, vandalism, fire or damage to private vehicles parked on our premises.

9 Company-issued equipment

9.1 Equipment and care

As an employee, you receive the equipment you need for your job: usually a laptop, a headset and a monitor, and for qualifying roles a mobile phone or tablet. IT issues and manages equipment through ServiceNow. Unless your contract says otherwise, the equipment belongs to Norvane Systems, and you may not sell it, lend it or give it away. You are responsible for keeping it safe and in good condition, and for returning it when you leave. If your equipment breaks or malfunctions, create a ticket with the helpdesk (helpdesk@norvane.example, ext. 3000), and IT arranges repair or replacement. Laptops are replaced after about 4 years.

If you have a company mobile phone, please use it within the limits of the corporate plan. Charges for private premium services or roaming outside the EU are at your expense, unless they are work-related.

9.2 Theft and damage

Our equipment is insured against theft and damage. Inform the helpdesk within 24 hours if your equipment is lost, stolen or damaged, so that IT can lock and, if possible, trace the device. In case of theft, also file a report with the police and give a copy to the helpdesk and to building security (security@norvane.example, ext. 9111). You are liable for loss or damage only in case of intent or gross negligence.

9.3 Security of devices

Please keep your laptop, tablet and phone secure by following NS-IT-POL-001:

- Keep all devices password-protected and use multi-factor authentication.
- Do not leave devices unattended; lock the screen when you leave your desk.
- Install security updates for browsers and operating systems as soon as they are available.

- Connect to company systems only through secure and private networks, and use the VPN on public Wi-Fi.
- Follow the instructions for disk encryption, anti-malware protection and password management that came with your equipment.
